BIOTROL™

S A F E T Y D A T A S H E E T

SECTION I: Identification

Product Identifier:
Product Name: **Birex® Plus™ Wipes**
Part/Item Number: **BP240**

Recommended Use of the Substance or Mixture and Restrictions on Use:
Recommended Use: Disinfectant Towelettes
Restrictions on Use: For professional use only

Details of the Supplier:
Distributed by: Biotrol
13705 Shoreline Court East
Earth City, MO 63045
1.800.325.1881

Emergency Phone Number:
Infotrac:
24-Hour Number- (U.S.) 1-800-535-5053
Outside U.S.- 352-323-3500

SECTION II: Hazard(s) Identification

Classification of the Substance or Mixture:

Health Hazard	Physical Hazard
Specific Target Organ Toxicity (Single Exposure) Category 3	Not Applicable
Serious Eye Damage / Eye Irritation Category 2B	Not Applicable

Label Elements:

Hazard Symbol:

Signal Word:
GHS – Warning
EPA – Caution

Hazard Statement(s):
Causes eye irritation.

May cause respiratory irritation.
May cause drowsiness or dizziness.

Precautionary Statement(s):
Prevention – Do not handle until all safety precautions have been read and understood.
Use personal protective equipment as required. Do not breathe dust/fumes/gas/mist/vapors/spray.
Response – IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, give artificial respiration. Immediately call a Poison Control Center or doctor/physician. **IF SWALLOWED:** Rinse mouth and drink plenty of water. Do not induce vomiting. Never give anything by mouth to a person who is unconscious or convulsing. Call a physician or Poison Control Center immediately. **IF IN EYES:** Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. If irritation persists seek medical attention. **IF ON SKIN (or hair):** Wash skin with flowing water or shower after use.
Storage – Keep container tightly closed and store in a dry, cool and well-ventilated place away from incompatible materials. **Keep out of the reach of children and pets.**
Disposal – Dispose according to all local, state and federal regulations.

Other Hazards- Not applicable

SECTION III: Composition/Information on Ingredients

Component	CAS #	WT%
o-phenylphenol	90-43-7	0.65
o-benzyl-p-chlorophenol	120-32-1	0.07
Isopropyl Alcohol	67-63-0	1 - 6

SECTION IV: First-Aid Measures

Description of First Aid Measures:
Inhalation – Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, give artificial respiration. Call a physician or Poison Control Center immediately.
Eye contact – Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. If irritation persists seek medical attention.
Ingestion – Rinse mouth and drink plenty of water. Do not induce vomiting. Never give anything by mouth to a person who is unconscious or convulsing. Call a physician or Poison Control Center immediately.
Skin contact – Wash skin with flowing water or shower after use.

Most Important Symptoms and Effects, Acute and Delayed: May cause eye irritation. Inhalation may cause respiratory tract irritation. Ingestion may cause mild irritation of the mouth, esophagus and stomach.

Indication of Any Immediate Medical Attention and Special Treatment Needed: Note to physicians - Treat symptomatically.

SECTION V: Firefighting Measures

Extinguishing media: Use water, CO_2, dry chemical or foam for extinction.

Special Hazards Arising from the Substance or Mixture: None Known

Advice for Fire-Fighters: As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

SECTION VI: Accidental Release Measures

Personal Precautions, Protective Equipment, and Emergency Procedures:
Personal Precautions – Use personal protective equipment as recommended in section 8. The wet, contaminated surface may be slippery.
For Emergency Responders - Restrict access to spill area. Ventilate the area.
Environmental Precautions - Prevent entry into waterways, sewers, basements or confined areas. See Section 12 for additional ecological information.

Methods and Materials for Containment and Cleaning Up: Prevent further leakage or spillage if safe to do so. Absorb with inert material. Shovel or sweep spills. Flush remainder with plenty of water.

SECTION VII: Handling and Storage

Precautions for Safe Handling: Handle in accordance with good industrial hygiene and safety practice.
Use personal protection recommended in Section 8. **Keep out of the reach of children and pets.**
Conditions for Safe Storage, Including Any Incompatibilities:
Storage Conditions- Keep container tightly closed and store in a dry, cool and well-ventilated place away from incompatible materials. Do not store below 45°F (7°C). Do not store above 80°F (27°C). **Keep out of the reach of children and pets.**
Incompatible Materials - Acids, oxidizing agents, and reducing agents

SECTION VIII: Exposure Controls/Personal Protection

Control Parameters:

Occupational Exposure Limits:		
Component	**OSHA PEL**	**ACGIH TLV**
Isopropyl Alcohol 67-63-0	TWA: 400 ppm TWA: 980mg/m3 TWA: 400 ppm (Vacated) TWA: 980 mg/m3 (Vacated) STEL: 500 ppm (Vacated) STEL: 1225 mg/m3 (Vacated)	STEL: 400 ppm TWA: 200 ppm

Exposure Controls:
Appropriate Engineering Controls - Apply technical measures to comply with the occupational exposure limits. Eyewash stations.
Individual Protection Measures (PPE) – Eye/Face Protection: Wear goggles, chemical safety glasses or a face protection shield. Skin and Body Protection: Chemical resistant, impermeable gloves are not required. Respiratory Protection: Under normal conditions a respirator is not normally required. A mask or respirator may be used if vapor concentration is high. General Hygiene Considerations: Handle in accordance with good industrial hygiene and safety practices.

SECTION IX: Physical and Chemical Properties

Information on Physical and Chemical Properties:	
Appearance:	Natural Colored Pre-moistened Towelettes.
Odor:	Lemon
pH:	11.0 - 12.0
Melting point/freezing point:	< 32°F / < 0°C
Initial boiling point and boiling range:	212°F / 100°C (Approximate)
Flash point:	Not flammable
Evaporation rate (Butyl Acetate =1):	< 1 (Approximate)
Flammability (solid, gas):	N/A-Liquid
Flammability limits in air:	Not Flammable

Vapor pressure:	Not determined
Vapor density (Air = 1):	> 1 (Approximate)
Solubilit(ies):	Completely Soluble
Partition coefficient: n-octano/water	See Section 12
Auto-ignition temperature:	Not flammable
Decomposition temperature:	Not determined
Viscosity:	Not determined
Specific gravity (Water = 1):	0.99
Explosive properties:	Not explosive
Oxidizing properties:	Not determined

SECTION X: Stability and Reactivity

Reactivity: Not reactive under normal conditions.
Chemical Stability: Stable under recommended storage conditions.
Possibility of hazardous reactions: None under normal processing.
Hazardous Polymerization: Hazardous polymerization will not occur.
Conditions to avoid: Avoid direct sunlight. Avoid temperatures below 45°F / 7°C. Avoid temperatures above 80°F / 27°C.
Incompatible materials: Acids, oxidizing agents, and reducing agents
Hazardous decomposition products: None known

SECTION XI: Toxicological Information

Potential Health Effects:
Inhalation - Avoid breathing vapors or mists.
Eye Contact – Avoid contact with eyes.
Ingestion - Do not taste or swallow.

Acute Toxicity Data:
Isopropyl Alcohol - LD50 (oral rat) 4396 mg/kg; LD50 (dermal rat) 12800 mg/kg; LC50 (inhalation rat 4 hr.) 72.6 mg/L

Carcinogenicity: The product as a whole has not been tested. IARC has determined that o-phenylphenol is not carcinogenic to humans (Group 3). ACGIH, OSHA, and NTP do not list o-phenylphenol as a carcinogen. IARC has determined that isopropyl alcohol is not carcinogenic to humans (Group 3). OSHA and NTP do not list isopropyl alcohol as a carcinogen. ACGIH lists isopropyl alcohol as A4 – not classifiable as a human carcinogen.

SECTION XII: Ecological Information

An environmental hazard cannot be excluded in the event of unprofessional handling or disposal. Harmful to aquatic organisms.

Toxicity:
Isopropyl Alcohol – Known toxin to algae/aquatic plants, fish, and crustacea. There is no information regarding the toxicity to microorganisms.
o-phenylphenol - Known toxin to algae/aquatic plants, fish, microorganisms, and crustacea.

Persistence and Degradability: Not determined

Bio-accumulative potential: Not determined

Mobility in Soil:
Isopropyl Alcohol – Partition Coefficient: 0.05
o-phenylphenol - Partition Coefficient: 3.09

Other Adverse Effects: Not determined

SECTION XIII: Disposal Considerations

Disposal of Wastes:
Dispose according to all local, state and federal regulations.
Isopropyl Alcohol - California Hazardous Waste Status: Toxic/Ignitable

Disposal of Packaging: Dispose according to all local, state and federal regulations.

SECTION XIV: Transport Information

DOT: Not regulated
IATA: Not regulated
IMDG: Not regulated

SECTION XV: Regulatory Information

US State Regulations:
California Proposition 65 – This product contains o-phenylphenol.

NOTE: In a letter dated September 10, 2008, from Lanxess, Certol International, LLC's Supplier of 2-phenylphenol (OPP), Lanxess Stated: "As none of the organizations/programs below have 2-phenylphenol (OPP) listed as a carcinogen, we do not see the legal authority to have 2-phenylphenol (OPP) listed under Proposition 65 in the State of California. National Toxicology Program (NTP); International Agency for Research on Cancer (IARC); Occupational Safety and Health Administration (OSHA); Environmental Protection Agency (EPA)."

US State Right-to-Know Regulations			
Chemical Name	**New Jersey**	**Massachusetts**	**Pennsylvania**
Isopropyl Alcohol	X	X	X
o-phenylphenol	X	X	X

US Federal Regulations:
SARA 302 - This material does not contain any chemical components with known CAS numbers that exceed the threshold reporting levels established by SARA Title III. Section 302.
SARA 311/312 – This material does not contain any chemical components with known CAS numbers that exceed the threshold reporting levels established by SARA Title III. Section 311/312.
SARA 313 – This material does not contain any chemical components with known CAS numbers that exceed the threshold reporting levels established by SARA Title III. Section 313.

International Regulations: Not determined

SECTION XVI: Other Information

NFPA Rating:
Health Hazards 1
Flammability 0
Instability 0
Special Hazards Not determined

HMIS:
Health Hazards Not determined
Flammability Not determined
Physical Hazards Not determined
Personal Protection Not determined

Issue Date: 19 February 2015
