Safety Data Sheet

Chairside Denture Reline Primer For Soft Reliner **SDS DATE:** 12/07/11

SECTION 1: PRODUCT AND COMPANY IDENTIFICATION

Product Name: Chairside Denture Reline Primer For Soft Reliner (Monomer)

Other Names: R-CHEM-011 Methacrylate Monomer

Product Use: Organic Process Chemical. To be used conjointly for temporary relining of the tissue bearing surface of the acrylic of full and partial removable dentures.

Distributor:
Septodont Confi-Dental Division
416 S. Taylor Ave.
Louisville, CO 80027
USA
Telephone: (800) 383-5158

Emergency Information Chemtrec:
(703) 527-3887

SECTION 2: HAZARDS IDENTIFICATION

Routes of Entry:
Inhalation, Skin, Eye, Ingestion

Potential Health Acute Effects:

Eyes:
Irritation to the eyes including but not limited to blurred vision, watering and discomfort.

Skin:
Repeated contact with skin may cause irritation. Repeated or prolonged use can lead to more severe symptoms such as skin sensitization, and organ damage, symptoms may be delayed.

Inhalation:
Irritation may occur. Repeated and/or prolonged exposure can cause dizziness, headache and anesthetic effects.

Ingestion:
Possible irritation and/or pain with ingestion includes but is not limited to the mouth, esophagus, respiratory and digestive tracts, vomiting and/ or diarrhea. Seek medical attention immediately and report the amount ingested.

Potential Chronic Health Effects:
Prolonged or overexposure at near lethal concentrations can cause organ damage

Carcinogenicity:
None of the components are known carcinogens.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

COMPONENT:	CAS NO.	WT%
Methacrylate Monomers	**80-62-6**	**60.0-100.0**

SECTION 4: FIRST AID MEASURES

Eyes:
If product gets in eyes, flush with copious amounts of lukewarm water for at least 15 minutes. If irritation occurs, contact a physician.

Skin:
If irritation occurs and product is on the skin, rinse thoroughly with lukewarm water, followed by a thorough washing of the effected area with soap and water. If irritation, redness or swelling persists, contact a physician immediately.

Ingestion:
If ingested, do not induce vomiting. If product has been swallowed, drink plenty of water or milk immediately. If the patient is

vomiting, continue to offer water or milk. Never give anything by mouth to an unconscious person. Provide an estimate of the time at which the material was ingested and the amount of the substance that was swallowed. Get medical attention immediately.

Inhalation:
Immediately seek fresh air. Open windows and/or doors to increase ventilation. Seek immediate medical attention.

SECTION 5: FIRE-FIGHTING MEASURES

Flammable/Explosive Limits:
Air Vol. %: Lower 2.12, Upper 12.5

Flash Point:
11.5°C, 52.7°F

Method Used:
No information.

Extinguishing Media:
Dry Chemical Foam, CO_2, Dry Chemical.

Special Fire Fighting Measures:
This product is a flammable liquid. When involved in a fire, this product may ignite readily and decompose to produce carbon oxides. Vapors of this product are heavier than air and may travel to a source of ignition and flash back to a leaking or open container. Do not enter fire area without proper protection. Fight fire from a safe location. Heat/impurities may cause pressure to build and/or rupture closed containers, spreading fire, increasing risk of burns/injuries. Structural firefighters must wear SCBAs and full protective equipment.

Unusual Fire and Explosion Hazards:
Vapors may travel to source of ignition and flash back.

SECTION 6: ACCIDENTAL RELEASE MEASURES

General Information:
Before cleaning any spill or leak, individuals involved must wear appropriate Personal Protective Equipment (e.g., goggles, gloves).

Environmental precautions:
Keep spills and cleaning runoffs out of sewers and open bodies of water. Spills on porous surfaces can contaminate the groundwater. Dispose of in accordance with Federal, State and Local regulations.

Process for cleaning and take-up:
Evacuate the area. Eliminate sources of ignition. Use self-contained breathing apparatus and protective clothing. Dike and absorb with inert material. Transfer to proper containers for disposal, use non-sparking tools. Contaminated monomer may be unstable, add inhibitor to prevent polymerization.

SECTION 7: HANDLING AND STORAGE

Handling:

Handling advice:
To be handled by qualified dental professionals.
Follow the instructions for use.
After each use, wash hands or exposed skin thoroughly. Do not smoke, eat or drink while using this product.

Storage:

Storage advice:
Store containers in a cool, dry location, away from direct sunlight, heat, sparks, flame, other light sources, or sources of intense heat. Keep containers closed after each use. Ground and bond all containers when transferring.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Guidelines:

Chemical Name	CAS #	Exposure Limits in Air	
		OSHA-PELs	ACGIH-TLVs
Methyl Methacrylate Monomer	**80-62-6**	100 mg/m^3	100 mg/m^3

Engineering Controls:

Ventilation:

Use local explosion-proof ventilation with a minimum capture velocity of 100 ft/min (30 m/min) at point of material release.

Personal Protection:

Respiratory Protection:

A respirator should be worn whenever workplace conditions warrant a respirators use. None required if airborne concentrations are maintained below the exposure limit listed above. If necessary, use only respiratory protection authorized per U.S. OSHA's requirement in 29 CFR 1910.134 or other appropriate governing standard.

Hand Protection:

If anticipated that prolonged & repeated skin contact will occur during use of this product, wear chemical resistant gloves. If necessary, refer to U.S. OSHA 29 CFR 1910.138, or other appropriate governing standards.

Eye Protection:

Depending on the use of this product, splash or safety glasses may be worn. If necessary, refer to U.S. OSHA 29 CFR 1910.133, or other appropriate governing standards.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

General description:

State: Liquid
Odor: Acrid
Color(s): Clear

Chemical Properties:

Designation:	Value:
Vapor Pressure	28 mm Hg at 20ºC
Boiling Point **Freezing Point**	101ºC, 214ºF -48ºC
Solubility in Water	Moderate, 1.6 g/100 g @ 20ºC
Viscosity	ND
Density	0.949 g/mL @ 15.5ºC
Specific Gravity (H_2O = 1)	1.1 g/cc at 25ºC/ 77ºF
Percent Volatile W/W%	99+
Vapor Density (AIR = 1)	3.5 @ 15.5ºC
Evaporation Rate (BuAc = 1)	ND

SECTION 10: STABILITY AND REACTIVITY

Stability:

The material is unstable. Reactive upon depletion of inhibitor.

Dangerous decomposition products:

Oxides of carbon when burned.

Reactivity:

Conditions to avoid:

Temperatures above 21°C, 70°F, localized heat sources, oxidizing conditions, freezing conditions, direct sunlight, and ultraviolet radiation, inert gas blanketing.

Hazardous polymerization:

Polymerization may occur.

SECTION 11: TOXICOLOGICAL INFORMATION

Toxicity Data:

Methyl Methacrylate:		
Oral (Rat)	LD_{50}:	>7900 mg/kg
Dermal (mouse)	LD_{50}:	>35500 mg/kg
Inhalation (Rat)	LD_{50}:	7094 ppm/4h

SECTION 12: ECOLOGICAL INFORMATION

General ecological information:

Aquatic toxicity is possible, including physical damage and death. Do not discharge into drains or the environment.

Methyl Methacrylate:		
Flathead Minnows	LC_{50}:	30 mg/L/96h
Daphnia magna	EC_{50}:	69 mg/L/48h
Algae	LC_{50}:	170 mg/L/96h

Environmental Fate:

For Methyl Methacrylate:

28 Day Biodegradation Study:	Not readily biodegradable. COD 88% within 28 days
Inherent Biodegradation:	DOC Removal >95% within 28 days
Adsorption/Desorption:	High mobility in soil

SECTION 13: DISPOSAL CONSIDERATIONS

Waste disposal of product:

When discarded it is listed as a hazardous waste by the EPA under RCRA U-162 with reportable quantity (RQ) of 1000 pounds (40 CFR Part 302) After addition of excess inhibitor, dispose waste material in accordance with Federal, State, and Local regulations.

SECTION 14: TRANSPORT INFORMATION

Proper shipping name: Methyl Methylmethacrylate Monomer, Stabilized
Hazard class or division: **3**
Identification number: UN 1247
Packing group: II

The transport information provided represents the regulatory transport classification of the product without consideration to packaging, quantity, or modal restrictions and exceptions. It is the user's responsibility to determine the appropriate packaging and modal requirements and/or limitations for the product quantity being shipped.

SECTION 15: REGULATORY INFORMATION

SARA Reporting Requirements: Yes

SARA Threshold Planning Quantity: There are specific threshold planning quantities for the components of this product.

TSCA Inventory Status: The components of this product are listed on the TSCA inventory.

Other Federal Requirements: This product complies with the appropriate sections of the Food and Drug Administration's 21 CFR.

Other Canadian Regulations: This product has been classified according to the hazard criteria of the CPR and the MSDS contains all of the information required by the CPR. The components of this product are listed on the DSL/NDSL. None of the components of this product are listed on the Priorities Substances List.

Symbols of Danger:
None

R-Phrase:
R11 – Highly Flammable
R36/37/38 – Irritating to the eyes and respiratory system and skin.
R43 – May cause sensitization by skin contact.

S-Phrase:
S3 – Keep in cool place.
S7 – Keep container tightly closed
S9 – Keep container in well ventilated place
S16 – Keep away from sources of ignition
S20 – When using do not eat or drink
S24 – Avoid contact with skin
S29 – Do not empty into drains
S37/39 – Wear suitable gloves and eye/face protection
S46 – If swallowed, seek medical advice immediately and show this container or label.

SECTION 16: OTHER INFORMATION

Hazardous Material Identification System (HMIS) Rating:

Health:	2
Flammability:	3
Reactivity:	2
Personal Protective Equipment:	Gloves and Safety Glasses or Chemical Splash Goggles

All information, recommendations, and suggestions appearing herein concerning our product are based upon tests and data believed to be reliable. However, it is the user's responsibility to determine the safety, toxicity, and suitability for his own use of the product described herein. Since the actual use by others is beyond our control, no guarantee, express or implied, is being made as to the effects of such use, the results obtained, or the safety and toxicity of the product nor is there any assumed liability arising out of use, by others, of the product referred to herein. The information herein is not to be construed as absolutely complete since additional information may be necessary or desirable when particular or exceptional conditions or circumstances exist or because of applicable laws or government regulations.
